Vice Mayor Levitan noted that Council was provided over 1,000 pages of documents relating to fracking; he focused on two in particular, the June 2015 report from New York State Department of Environmental Conservation, and the June 2015 Assessment of the Potential Impacts of Hydraulic Fracturing for Oil and Gas on Drinking Water Resources Executive Summary published by the Federal Environment Protection Agency. Vice Mayor Levitan also noted for the record that no one appeared before the Council that was against the ordinance, the Planning and Zoning Board found conclusively that the ordinance was consistent with the Comprehensive Plan, and voted to strongly recommend that Council

adopt the ordinance. He also referred to the preamble to the Estero Comprehensive Plan as well as Goal 19 Vision Statement. He stated that he believed that the ordinance was entirely consistent with the Comprehensive Plan and that the only way to protect quality of life in Estero was to ban the practice completely.

Councilmember Errington conveyed appreciation to the Conservancy for all of the work involved and stated that water was the important issue. She agreed with Vice Mayor Levitan and noted that she has not had one person ask her to support fracking.

Councilmember Boesch commented that the emphasis was on water, especially in this area. He suggested that the H2O Solutions report be included in the record. Attorney Saunders responded that all documents presented at the meeting would be part of the record.

Mayor Batos stated that he was told that if the Council passed the ordinance and the Bill passed as written, the ordinance would be preempted; however, if the wording in the Bill was rewritten, the portion that would preempt the Village from controlling the zoning would be reinstated. He continued that he was not in favor of fracking; however, he wanted to be practical and put in laws that meant something. He stated that his responsibility was to represent the people; although he did not believe that the ordinance would accomplish anything, he would be in favor of the ordinance because he sensed that was what most people wanted.

The motion was called and carried unanimously through a roll call vote, with Councilmember Brown absent.

The meeting went into recess at 7:55 p.m. and reconvened at 8:02 p.m.
